

**Complete Lesson Transcript – Lesson 186 [English]**

Kirin: Chinese Learn Online lesson 186 .

Hello everyone , I'm Kirin .

Raphael: Hello everyone , I'm Raphael .

Adam: And hello, I'm Adam.

Kirin: Welcome to Taiwan and our progressive course teaching Chinese . What are we studying today ?

Raphael: Today we are going to discuss insects .

Kirin: What is that ?

Adam: Insects.

Kirin: Insects .

Raphael: In Asia, many places have hot weather , so I feel those places have more insects . So today I want to teach you some , insects that we see in our daily lives .

Kirin: This is very useful , since you can see these insects in most places .

Raphael: Right, so the first kind of insect that we are going to introduce , is one that I think you can find in most countries , it's

Kirin: Housefly .

Adam: Housefly.

Raphael: At home, where can you see flies ?

Kirin: Usually if you leave food outside , for example in the living room or kitchen , you will probably see some flies .

Raphael: Right, next , the insect that most people hate the most .

Kirin: Cockroach .

Adam: Cockroach.

Raphael: Why are some people scared of cockroaches ?

Kirin: Because cockroaches are bigger than other insects , as well, they like to eat our food .

Raphael: Right, so when we haven't finished eating our things , don't leave leftover food on the table , since the cockroaches will come out to play at night . If we eat things that cockroaches have eaten , we might become sick .

Kirin: Eee, I can't stand cockroaches .

Raphael: Next, I want to introduce today's smallest insect .

Kirin: Ant .

Adam: Ants.

Raphael: Usually when we see ants walking , it feels like they are lining up . So I don't think ants are that bothersome .

Kirin: Since they are too small , so I don't pay much attention to them .

Raphael: Ok, the next insect , is probably the one that bothers people the most , as well, is the one people can't stand the most .

Kirin: Mosquito .

Adam: Mosquito.

Raphael: Usually when we are sleeping , mosquitoes come out .

Kirin: Outside, in places with water , there are more mosquitoes .

Raphael: Right . Since they were born in water . Ok, I want to teach you another one, that isn't an insect , but it's similar .

Kirin: Spider .

Adam: Spider.

Raphael: Spiders eat smaller insects , such as the mosquitoes in your house, ants and flies . So some people like spiders .

Kirin: But some people are also scared of spiders .

Raphael: But I feel they are ok . Since I feel mosquitoes and cockroaches are more troublesome . Ok, let's take a moment to review the new words taught today .

Kirin: Insects .

Adam: Insects.

Kirin: Houseflies .

Adam: Houseflies.

Kirin: Cockroaches .

Adam: Cockroaches.

Kirin: Ants .

Adam: Ants.

Kirin: Mosquitoes .

Adam: Mosquitoes.

Kirin: Spiders .

Adam: Spiders.

Raphael: Ok, on our website [chineselearnonline-com](http://chineselearnonline-com) , premium subscribers can see more new words related to insects .

Kirin: Continue to keep at it !
