Raphael: Hello everyone , I am Teacher Lai .

Adam: And hello, I'm Adam.

Kirin: Welcome to our learning Chinese course .

Raphael: Today we are going to listen to an article that reviews the words taught in our last lesson . As well, there are two new words in this article .

Kirin: International .

Adam: International.

Kirin: City center .

Adam: Literally that's "city center", which refers to the "city center" or "downtown".

Raphael: Ok, let's first listen to today's article at a normal speed .

Kirin: Hong Kong is one of the world's most famous cities . So why is this place so famous ? That's because Hong Kong is an international city . Due to Hong Kong's having relations with England in the past , during that time many British people emigrated to Hong Kong . These days it's still the same , apart from British, there are also citizens from other countries who have chosen to emigrate to Hong Kong . Right now the population of Hong Kong is more than six million people . Due to the land area there not being very large , Hong Kong's buildings are getting taller , there are also a lot of people working and shopping in the city center . Although it's quite a crowded environment there , the shopping centers , and many international restaurants are all quite famous . It's no wonder that Hong Kong is regarded as the best international city to learn and get to know Eastern and Western culture .

Raphael: Let's listen to this article again at a slowed down speed .
