

## Complete Lesson Transcript – Lesson 316 [English]

Kirin: Chinese Learn Online lesson 316 .

Hello everyone , I am Teacher Yang .

Raphael: Hello everyone , I am Teacher Lai .

Kirin: Welcome to our learning Chinese course .

Raphael: In today's lesson , we are going to listen to an article that reviews the words taught in our last lesson . Let's first listen to today's article at a normal speed .

Kirin: Right now the ways that parents use to raise their kids are a little different from how they did in the past . The biggest difference is due to the influence of technology , which makes kids today harder to control . In the past, most houses only had one television set , and no computer . When children did their homework , they used pens to write their homework , and used their textbook to look up information . When evening came , parents only had to turn off the television , and tell their kids to put away their toys , and let them go to bed . But nowadays there are many children who for homework , have to have their own computer , so computer games have slowly replaced boys' toys , and girls' dolls . Because of this , parents sometimes get confused whether their children are doing homework , or playing games . Moreover, most teenagers have their own cell phones . Some children often use the time their parents are sleeping to talk on the phone with their friends . For those parents who want to completely control their kids , they will need to find more capable technology to control their kids' technology .

Raphael: Let's listen again to today's dialogue at a slowed down speed .
