

## Complete Lesson Transcript – Lesson 320 [English]

Kirin: Chinese Learn Online lesson 320 .

Hello everyone , I am Teacher Yang .

Raphael: Hello everyone , I am Teacher Lai .

Kirin: Welcome to our learning Chinese course .

Raphael: Today we're going to listen to article that reviews the words taught in our last lesson .  
Let's first listen to today's article at a normal speed .

Kirin: Due to improvements in technology , some things are slowly being replaced by computers . For example right now there are many newspaper companies that have published electronic newspapers . This way customers can choose to take news content and download it to their computer or cell phone to read . Recently there have also been digital versions of books . In this global business , fax machines are also slowly being replaced by email . This way when people send out pictures , they can use color pictures to replace the black and white ones . In the past when introducing products to customers , people might have used a complicated report with many numbers to introduce them to the customers . But now people have found using presentations are better , since they are quicker and more direct . This makes it easier to present their goals to customers . As well, the invention of digital cameras , also lets people easily take the photos they have taken and put them on the internet to let everyone see . This way you don't need to print out those photos . Many people feel since computers help people save a lot of paper , this reduces our garbage . These changes improve our world environment .

Raphael: Let's listen again to today's dialogue at a slowed down speed .

Kirin: Due to improvements in technology , some things are slowly being replaced by computers . For example right now there are many newspaper companies that have published electronic newspapers . This way customers can choose to take news content and download it to their computer or cell phone to read . Recently there have also been digital versions of books . In this global business , fax machines are also slowly being replaced by email . This way when people send out pictures , they can use color pictures to replace the black and white ones . In the past when introducing products to customers , people might have used a complicated report with many numbers to introduce them to the customers . But now people have found using presentations are better , since they are quicker and more direct . This makes it easier to present their goals to customers . As well, the invention of digital cameras , also lets people easily take the photos they have taken and put them on the internet to let everyone see . This way you don't

need to print out those photos . Many people feel since computers help people save a lot of paper , this reduces our garbage . These changes improve our world environment .
