Hello everyone , I am Teacher Yang .

Raphael: Hello everyone , I am Teacher Lai .

Kirin: Welcome to our learning Chinese course .

Raphael: In today's lesson , we are going to listen to an article that reviews the words taught in our last lesson . Let's first listen to today's article at a normal speed .

Kirin: These days , many agents have discovered that their work is slowly being replaced by some websites . In the past, if you wanted to find a house to rent , you would look for the help of an agent . You only had to tell them what your budget was , and what kind of place you wanted to live in , and they would find a way to get you a suitable place . But nowadays you can handle all these things by yourself . You just need to visit a local website to look for a house or an apartment , that's it . If the rent is too expensive , on the website you can look for one or two roommates to live with you . As well, some landlords will take their rental conditions and post them clearly on the website . This way when you meet with the landlord to sign the contract , you already know what conditions are in the contract , and don't need to worry . As well, most of the rental housing websites are free . This way, when you find a house , you don't need to pay an agent , and can instead save those expenses .
