zēngjiā
To raise / increase

減少
jiǎnshǎo
To lower / decrease

根
gēn
Root / Basis

據
jù
According to

增
zēng
To increase

Lesson 334 Notes (Simplified / Traditional):

In level 6 of our course, we venture into more specific topics, such as economic terms, globalization etc. Spend more time on the topics that interest you, while you can skip over words from topics that you don't plan to use at this stage. However, don't skip over lessons entirely, since some of the words taught are generic and can be used within other contexts. For example, in this lesson, although the topic is about managing profits, words like "according to", "increase" and "decrease" are pretty general and can be used in other topics as well.
