Kirin: Summer vacation is the holiday that every student looks forward to the most . Some people use summer vacation to work part time , where they can save the money they earn , and prepare for the expenses of the next semester , such as tuition fees or rent . Other than working part time , some students will also use summer vacation to go traveling to many places and relax . In Taiwan, many people choose to travel around the island , no matter whether it's by foot, riding a bicycle or riding a motorcycle . As long as you want to go out , you can try it all , since each type provides a different experience . There are even some people who travel around the island for free . They just carry their clothes and simple luggage , and wait by the side of the road for cars to pass by , and then ask drivers if they can take them to the next place . How about you ? Are your bags packed ?
